Experience

Full-Stack Java Spring Boot React Software Developer LoveAdmin UK

Jun, 2022 - Present

Working as a full-stack developer with spring boot react js and Postgresql. Involved in new features, bug fixing, improvements, and scalability. Scrum methodology used.

Back End Java Spring Boot Software Developer Sisal Group

Feb, 2021 - Present

Java Software Developer. Working with Spring Boot

Software Developer Freelancer

Feb, 2021 - Present

Working with different projects mostly with Spring Boot.

Java Software Developer EasyMarine

Feb, 2021 - Present

Developing desktop applications with JavaFX and maintenance support.

Full-Stack Java Software Developer EasyMarine

Feb, 2018 - Feb, 2021

Easy Marine offers digital service solutions for digitalization for the sea shipping sector. Starting from 2007 the company has built big systems for helping the crew and company office to have under control documents and different procedures requested by law. Since I started working at Easy Marine they trusted me to work on almost all company projects. Also, I have offered support to company customers.

Education

Masters in Business Informatics from University of Aleksander Xhuvani

2017 - 2018

Modules: Web Programming (HTML, CSS, JavaScript), Object-Oriented Programming in Java, Database, Algorithm, Computer Networks, Information Security, Operating Systems, Cryptography, Computer Architecture. Master's Degree evaluation from 4-10. Result *10*.

Bachelor in Business Informatics from University of Aleksander Xhuvani

2014 - 2017

Modules: Web Programming (HTML, CSS, JavaScript), Object-Oriented Programming in Java, Database, Algorithm, Computer Networks, Information Security, Operating Systems, Cryptography, Computer Architecture. Bachelor's Degree evaluation from 4-10. Result *9*.

Projects

Marpol Desktop APP

Type of sector: Maritime transport

Oct, 2018 - Jan, 2019

Marpol is a desktop app used to calculate allowed ship pollution based on Marpol Annexes. The software calculates the allowed pollution based on the ship's location by reading shapefiles. My task was to read shapefiles based on the location of the ship and show the calculation result for allowed and not allowed emission and pollution.

Technology Stack

JavaFX, Equinox(OSGi), Maven, Bundle, DerbyDB, JavaFX, EclipseLink, Jasper Reports, GeoServer.

eShipManager WEB APP

Type of sector: Maritime transport

Feb, 2018 - Present

EASY and EASY OFFICE ship manager. Two big web app platforms. Easy is used to the ship and EasyOffice is been used for the ship's owner's office. Two apps communicate together and transfer data between each other like documents, messages, etc. Easy and EasyOffice were existing projects and I have been working to fix different bugs also developing new modules.

Technology Stack

JavaEE, Spring Framework, JSF, Primefaces ▪ Tomcat, MYSQL, Jasper Reports.

easymarine.it(Official Website) WEB APP

Type of sector: Maritime transport

Jan, 2020 - Feb, 2020

Official Company Website that I developed all alone from scratch.
Technology Stack
Spring Boot, Thymeleaf, JavaScript, CSS, MySQL, OpenStreetMap,
KML. Please for more follow <https://www.easymarine.it/>.

NavigationRobot WEB APP (Crawler)

Type of sector: Maritime transport

Apr, 2020 - Jun, 2020

NavigationRobot is a crawler web app that is used to take information from different websites where the navigations are published. The app uses selenium for site navigation and after processing all the information generates KML files updated every week. This app I have developed all alone from scratch.

Technology Stack

Spring Boot, Thymeleaf, JavaScript, CSS, MySQL, OpenStreetMap, KML, Selenium.

LogBook Desktop APP

Type of sector: Maritime transport

Oct, 2019 - Oct, 2020

LogBook is a desktop app used to save ship logs operation types. Bunkering, de-bunkering, and discharging of different oils at sea is a sensitive case and regulated by law. LogBook is used to save all logs as the law request it. On this project, I have been working with my team leader and we developed it from scratch.

Technology Stack

JavaFX, Equinox(OSGi), Maven, Bundle, DerbyDB, JavaFX, EclipseLink, Jasper Reports.

Smartload Desktop APP

Type of sector: Maritime transport

Oct, 2020 - Present

Smart Load is a desktop app used to calculate ship stability at sea based on tank weight, volume filled, tank types, tanks position, and ships specifications. On this project, I have been working with my team leader and we developed it from scratch.

Technology Stack

JavaFX, Equinox(OSGi), Maven, Bundle, DerbyDB, JavaFX, EclipseLink, Jasper Reports.

Notices To Mariners Desktop APP

Type of sector: Maritime transport

Apr, 2021 - Present

The app downloads "Notices to Mariners" published on the official UK FTP and merges all the information to save the data as an inventory for each different ship that will use the app. I developed this app by myself from scratch.

Technology Stack

JavaFX, Equinox(OSGi), Maven, Bundle, DerbyDB, JavaFX, EclipseLink, Jasper Reports.

Atena Web App

Type of sector: Gambling

Feb, 2021 - Present

Working with spring boot and microservice.

Technology Stack

JDK 11, Maven, Spring Boot, LDAP, JWT, ReactJS, Oracle DB, Docker, Kubernetes, Jenkins, Sonarqube.

Atena-Admin Web App

Type of sector: Gambling

Feb, 2021 - Present

Working with spring boot and microservice.

Technology Stack

JDK 11, Maven, Spring Boot, LDAP, JWT, ReactJS, Oracle DB, Docker, Kubernetes, Jenkins, Sonarqube.

Sogei Web App

Type of sector: Gambling

Feb, 2021 - Present

Working with spring boot and microservice.

Technology Stack

EJB,Maven, Spring Boot, LDAP, JWT, ReactJS, Oracle DB, Docker, Kubernetes, Jenkins, Sonarqube.

Wallet Web App

Type of sector: Gambling

Feb, 2021 - Present

Working with spring boot and microservice.

Technology Stack

JDK 11, Maven, Spring Boot, LDAP, JWT, ReactJS, Oracle DB, Docker, Kubernetes, Jenkins, Sonarqube.

REGISTRY (Gambling) Web App

Type of sector: Gambling

Feb, 2021 - Present

Working with spring boot and microservice.

Technology Stack

JDK 11, Maven, Spring Boot, LDAP, JWT, ReactJS, Oracle DB,
Docker, Kubernetes, Jenkins, Sonarqube.

My Coin Api (BackEnd) and My Coin (FrontEnd) Web App

Type of sector: Cryptocurrency

Feb, 2021 - Present

Online demo for testing API:

<https://my-coin-api.herokuapp.com/my-coin-api/swagger-ui.html#/>

Online Next-JS APP connected to BackEnd:

<https://my-coin-arturkorra.vercel.app/>

This is a demo project not yet completed that stimulates how a crypto wallet and exchange should work.

Technology Stack

JDK 11, Spring Boot, Spring Security, Spring Data, JWT, Hibernet,
Swagger and Maven

My Coin (FrontEnd)

HTML, CSS, Javascript with NEXT JS Framework (React Js)

LoveAdmin Web App

Type of sector: Management

Jun, 2022 - Present

Working with Spring Boot, React JS and Postgresql.

Technology Stack

JDK 11, Maven, Spring Boot, JWT, React JS, Postgresql DB, Azure, Scrum.
